PROFESSIONAL SUMMARY

My name is **Ihimbazwe Niyikora Kevine**. I'm a passionate software engineering student who loves to combine technology and creativity. My strengths are in frontend development using React.js, UI/UX design tools like Figma, and basic cybersecurity awareness. I also enjoy building apps that solve local problems and make everyday life simpler and smarter. When I'm not coding, I enjoy painting, sketching, and exploring how tech can inspire positive change in my community.

WORK EXPERIENCE

Intern, Code Alpha, Nov 2024 - Dec 2024
Intern in full stack development batch
